MINING NOTES.

Reliable information comes from the Tiptop country in regard to the great richness of mines in that section. The Tiptop ledge, at the 600-foot level, is 3 feet wide, and carries over several hundred dollars per ton. Teams are constantly hauling ore from mine to mill, and a large dividend will soon satisfy owners in this property. The Tiptop has been an expensive property to open and develop, nevertheless it has paid its way, and several fine dividends have been declared. With the present openings a great deal of good ore can be cheaply taken out, and for a long time no considerable outlay will have to be made in operating this fine property. To Mr. Weber, Superintendent, and Mr. Brown, foreman of the mine, is due much praise for careful and good management.

Southwest of the Tiptop, Messrs. Rodenburg & Co. have a group of fine mines yielding high grade ore, which are continually being developed in workmanlike shape. Their mines are located on Tule Creek, convenient, of course, to water and wood, and are a desirable property for capitalists who wish to operate on a large scale mines and machinery.

Thus could we continue to record every few hundred yards fine mining properties from Tiptop to Prescott, a distance of 65 miles, had we an inclination. The country between the two points is one mass of quartz and ledges rich enough to satisfy the most greedy prospector, but the very essential element required—capital—is wanting for their proper development.

On Big Bug, Turkey, Lynx, Hassayampa and Groom Creeks a great many mines are busy mining, and doing well. At Walnut Grove a furnace is in operation, and silver bullion is coming out in quantities to satisfy the owners.

At Meville the Tusconia mill and mine are in operation, and the results are very good. Thousands of dollars have during the last few months been shipped from this channel.

The mining industry is on the gain, and a few months hence will find us with a big boom.

OUR NEXT DELEGATE.

That Oury wants to be our next Delegate there is little doubt. That Ben Morgan wants to become a candidate for the same is no question. That Hon. John G. Campbell will be in the field we are prepared to state is a fact. Who will be the successful man? Campbell will have the money to carry his point. Now, with these war horses in the field, it seems to us that the importance of the matter should invite representatives to action. We want a live, wide-awake, energetic man to battle successfully against the heavy batteries of the Democracy of Arizona. We don't want any lame lamb of the Republican family to poke his nose into the pie, but a regular fighter, who can fight and win. Let us arise and put on the harness ready to pull and win. Northern Arizona is entitled to the next Delegate, and it appears to us that Hon. A. E. Davis could win. No doubt ducks are wanted for the race, and their propositions will be rejected.

A bill was reported to the Senate, in committee of the whole, on the 6th instant, for the relief of Major Wm. M. Maynard, Paymaster U. S. Army, providing for the payment to him of \$8,726.50, the amount paid by him into the U. S. Treasury in liquidation of a deficiency in his accounts at Prescott, Arizona, caused by robbery committed by his clerk, D. D. Chandler, on April 3, 1876; and also the further sum of \$100, paid by Maynard for the arrest of Chandler, both sums having been recommended by the board of inquiry. The bill was reported to the Senate without amendment, ordered to be engrossed for a third reading, read the third time and passed.

"Can't some one get up a match between Charley Beach and Donald Bobb?" Dick Rule in the Tombstone Nugget.

Yes. Beach would have something to say about those moonlight (or no moon) rambles of Dick and ———, beneath the apple and peach trees and through the vineyard of one of our old friends on the Rio Grande, for a period of eleven days and nights—mostly nights—until the black-hearted deceiver was told to find new quarters.

State Superintendent Bloss, of Indiana, has given notice that every school trustee who fails to change school house doors so that they will swing outwardly, is liable to a fine of not more than \$100 and not less than \$10, with imprisonment if deemed advisable. As there are some 3,000 school houses in Indiana the change will cost no small sum.

The confirmation of General Rufus Ingalls as Quartermaster-General was accomplished without serious opposition. Senator Beck made a speech directly against the policy of appointing officers to higher rank merely to retire them. It is believed that General Ingalls will at once make new arrangements of chief quartermasters in all the great military divisions.

Twenty names have been handed us since yesterday as eminently fitting to be sent forth to the voters of Arizona, at the November election; for Delegate to Congress. We have examined them closely and find they are old spavined nags, whose days of usefulness have long since passed into oblivion.

According to our dispatches, the Stalwarts are having a little breeze. We take but little stock in telegraphic reports in regard to Stalwarts, as the reports are made up by the green grass element, which is so conspicuous around the capital buildings at Washington.

The Atlantic Journal of the 10th inst., says two car loads of mines for the Atlantic & Pacific and Prescott will be shipped from here to Winston today.

THE THEATER.

Our "professionals," as they are no longer to be classed with "amateurs" after their "fine hit" last evening in the comic opera of "Rose of Auvergne" and "Penelope," drew a crowded house. The performance commenced with "Rose of Auvergne," a play in which the celebrated Alice Oster gained so much fame, with Miss Jessie Stevens as "Flourette." A gentleman who was present, and endowed with a critic's eye, pronounced Miss Stevens the peer, if not the superior to Alice Oster, in this charming comic opera. This is praise enough for any one.

"Alphonse," the shoemaker, by Dauphin, of course was excellent, because Joe never undertakes a task beyond his ability to execute; and, as for "Pierre," the blacksmith by Harry Carpenter, we are tempted to say not one word, knowing full well that our criticism must fall short of doing him justice.

"Penelope," with which the evening's entertainment concluded, was very enjoyable and splendidly handled. Miss Stevens sang with her usual sweetness, while Miss Irish, with her pure, sweet voice, was all that could possibly be expected or desired. Her part was well taken, and elicited considerable applause.

The gentlemen, Clarence, Dauphin and Carpenter were at home in the play, and "brought the house down." The performance was a success all around, and we hope the "professionals" will give us some more of the same kind of acting.

General Fremont has been dilatory in pressing his claim to Alcatraz. He paid \$5,000 for it originally, and the government has spent \$8,000,000 upon it. Just as it stands it would be of no value to Fremont or any other private citizen. If he has an equitable claim, however, it should be settled—Post.

A bill has been introduced in the Ohio Legislature providing that in all cases of acquittal for murder on the ground of insanity the jury shall find in its verdict, and the person so acquitted shall go to the insane asylum for life.

In Tucson the wind blew down a large adobe house, in which were domiciled ten or fifteen persons. No one hurt.

Telegraphic.

WASHINGTON, March 13.—The friends of visitors visited the jail in which the murderer Guitman is confined, on Sunday, but were unable to gratify their curiosity, because of the orders issued that no visitors should be admitted on Sundays. Guitman was annoyed at this, because he expected to make a large sale of his pictures and autographs. It is his custom to invite visitors to make purchases, the proceeds of which, he says, he intends to devote to pay the lawyers to defend him in the court in June. He is still as vain as ever.

EDMUNDS AND THE SUPREME COURT. Senator Edmunds has recommended his resolution relative to the offer made him last week, of the Supreme Judgeship. The matter had been held open at the special request of his friends. Judges of the Supreme Court have lent their influence in a quiet way to persuade Mr. Edmunds to go on the bench. When he first refused he was depressed by the sad news from a physician about a member of his own family and not capable of considering the subject fairly.

NOMINATIONS BY THE PRESIDENT. The President has nominated Judge Blatchford for the Supreme Court Bench and John Russell Young as Minister to Chili.

THE MOORMANS AT THEIR DEVILISH WORK. RALEIGH, (N. C.), March 14.—In Gaston county, this State, the people still continue to have trouble with the Mormon missionaries, who are said to have captured the King's Mountain Baptist Church, situated on the battlefield of King's Mountain, their having made converts of some sixty of its members. A great number are flocking to them from the vicinity. Two Elders, calling themselves W. C. Burton and J. M. Easton, are engaged in the work of proselytizing. They baptize and receive into the Mormon faith, first requiring all converts to pledge themselves to their doctrines. They have now established a regular church there.

THE STRIKE IN OMAHA. OMAHA, March 14.—Work has resumed on the contract left by strikers. An inquest upon Armstrong, a citizen who died last night from bayonet wounds, is still in progress. There is less excitement in the city than had been anticipated. Strikers make no demonstrations thus far.

LOS ANGELES LIVES BY AN EARTHQUAKE. PANAMA, March 14.—Intelligence has just been received here of an earthquake in Costa Rica. Advice thus far state that four towns have been destroyed. In Alajuela alone several thousand lives have been lost. Those left alive are homeless.

THE PERILS OF THE OCEAN. SAN FRANCISCO, March 14.—An Empire City dispatch says that a boat with three sailors from the Australian bark Bulwark, Captain Williams, came in over the bar this morning. They report that the bark foundered on March 1st, twenty-eight days out from Yokohama, bound for Puget Sound, in ballast. These three men were in the boat when it was lowered, and swung to rough sea. It got adrift and it was impossible to regain the ship, which was out of sight next morning. The officers and crew, eighteen in number, were left on board with no serviceable boat and are probably lost, as the boat at the time they left was leaking badly.

ROBBED AT WILCOX. Wilcox, March 14.—Two civilians and two soldiers were arrested yesterday for stealing government property. They pleaded guilty before Judge Burke. The soldiers were turned over to the military and the civilians bound over to await the action of the grand jury, which meets in May.

DEER ELK AND SWEEP OAKLAND. SAN FRANCISCO, March 14.—At the Oakland
